FIWARE Academy – <http://edu.fiware.org>

The screenshot displays the FIWARE Academy website interface. At the top right, it says "You are not logged in. (Login)". The main navigation menu is open, showing a tree structure:

- Home
- Site pages
- Courses
 - FIWARE Enablers
 - ...ions and Services Ecosystem and Delivery Framework
 - Cloud Hosting
 - Data/Context Management
 - Cloud Messaging GE (ALON)
 - Orion Context Broker (highlighted with a red circle)
 - ...Event Processing (IBM Proactive Technology Online)
 - Cosmos
 - Orion Context Broker (legacy)
 - Stream Oriented (Kurento)
 - ...d middleware and interfaces to Network and Devices
 - Internet of Things (IoT) Services Enablement
 - Security
 - Advanced Web-based User Interface
 - Development Tools
 - FIWARE Ops
 - FI-STAR (e-health)

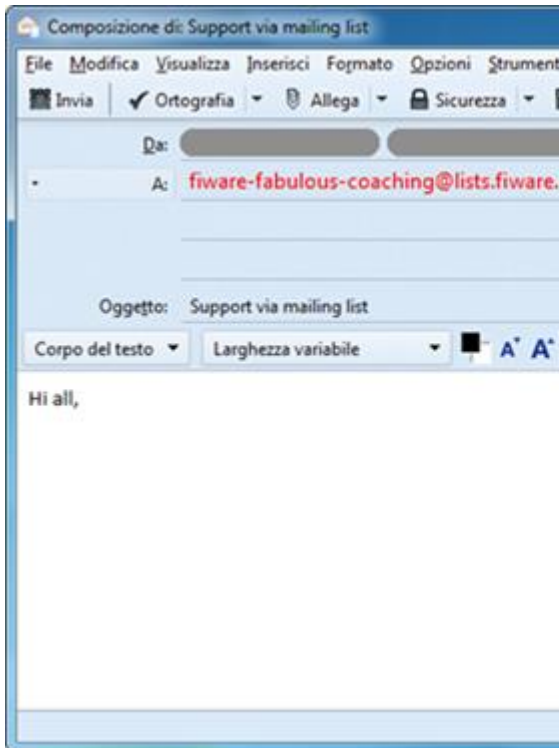

The "Orion Context Broker" course page is shown, featuring a "START" button with a hand cursor. The course content includes:

- Orion Context Broker**: Introduction and usage of the Orion Context Broker, implementation of the Publish/Subscribe Broker GE and the Backend Configuration Manager GE.
- 1.- Orion Context Broker Basic**: Managing Context Information at large scale (Basic)
- 2.- Orion Context Broker Advanced**: Managing Context Information at large scale (Advanced)
- 3.- Orion Context Broker Exercises**: Summary of the exercises you will find in the slides:
 - Deploy your own Orion instance
 - Create entities using [standard ops](#)
 - Query entities using [standard ops](#)
 - Update entity using [standard ops](#)
 - Update two attributes same entities using [standard ops](#)
 - Create entities using [conv ops](#)
 - Query entities using [conv ops](#)
 - Update entity using [conv ops](#)
 - Browsing entity types ...

At the bottom left, the FI-WARE logo is visible with the tagline "Open APIs for Open Minds".

Description

It is important to use ALWAYS this mail list!

Hi there pasquale,

Thanks for your fast Response.
I am afraid its something related to my account (info@carbonbyte.com) not having access rights to use object storage anymore.

Everything was going ok since last fiware updates.

I read latest emails and tried to upgrade my account to a community one, but i always end receiving an email starting with this text:

" Spam detection software, running on the system "fiware-forge-01", has identified this incoming email as possible spam. The original message has been attached to this so you can view it (if it isn't spam) or label similar future email. If you have any questions, see @@CONTACT_ADDRESS@@ for details.
